

recycled rubber warranty

ecofinishes®' recycled rubber flooring is guaranteed to be free from manufacturing defects in material and / or workmanship. If the recycled rubber flooring is found to be defective under normal conditions for a period of five years from the date of receipt (to original purchaser), ecofinishes® will, at it's own discretion, replace the defective material or issue credit not to exceed the selling price of the defective goods. This warranty does not cover installation costs or other related expenses. Although ecofinishes® rubber flooring is used successfully in ice-rink applications, this warranty expressly excludes premature wear caused by ice skates in heavy-use areas (penalty boxes, walkways to and from the ice, etc.). Due to the abusive nature of skate blades on any type of flooring, ecofinishes® highly recommends the use of blade protectors when walking on our floor.
